Work Experience

Learnable Internship at Genesys Tech Hub Enugu

Frontend Developer Intern   Dec. 2023 – Sep. 2024

- Translate wireframes and UI designs into functional, responsive web pages using HTML, CSS, and JavaScript.
- Worked in an 8-man team to develop a travel application that lets users plan their trips around Enugu and Abuja specifically for a start. The product was built with reactJs for frontend hosted on vercel, then Nodejs for backend and hosted on render.
  https://cue-nine.vercel.app/
- Work closely with the design team to ensure consistent brand and user interface.
- Utilize Git for version control to manage project collaboration.
- Built a to-do list application https://to-do-list-vdha.vercel.app/
- Built a notes app https://notes-tau-seven.vercel.app/
